1. The statistics in this table are badged as 'Experimental while we seek feedback from users to help evaluate these new statistics.
2. Morning peak defined as 7am to 10am. School holiday periods and the month of August are excluded.
3. Average journey times are measured in specified direction of the road network.
4. Average vehicle speeds have been derived using flow-weighted estimates for individual months. These monthly estimates have then been used to calculate si
5. Figures in the Table have not been seasonally adjusted
6. Average speeds on individual local 'A' roads have not been presented for road segments less than 0.5 miles in length as they may give users a false impressi
generally.
